SUBARTICLE 3
ACCESSORY DWELLING UNITS

SOURCE: Entire Subarticle added by P.L. 38-007:1 (Apr. 12, 2025).

- § 61140. Purpose.
- § 61141. Accessory Dwelling Units.
- § 61142. Accessory Dwelling Units: Standards.
- § 61143. Common or Separate Utilities Options.
- § 61144. Rental of Accessory Dwelling Unit.
- § 61145. Reporting Requirements to the Municipality.

§ 61140. Purpose.

The purpose of this Subarticle is to allow homeowners to construct residential accessory dwelling units (ADUs) on the same lot as a single-family home located in residential (R1, R2) and A zones to encourage, accommodate and regulate the construction of accessory dwelling units, increase the number of affordable rental units and alleviate the housing shortage on Guam, and to establish land use standards for ADUs - also referred to as second units, in-law units, casitas, or ohana dwelling units. Allowing the construction of ADUs permits adult relatives to enjoy independent living separate from the occupants of the main home. It is intended to be an affordable alternative to assisted living and other senior home businesses that are not yet available on a scale to meet the demands of Guam's aging population.

§ 61141. Accessory Dwelling Units.

(a) Accessory Dwelling Units (ADUs) are secondary studio or bedroom dwelling units that include a separate entrance, kitchen, and bathroom facilities, detached from or attached to the primary single-family home on the zoning lot. For attached ADUs, the entrance may be shared with the primary single-family home. Nothing in this Section shall be construed to exempt ADUs from compliance with existing regulations of the Section 8 program.

(b) Accessory dwelling units may be allowed as a permitted use in an R1, A, or R2 zone, subject to the following conditions:

(1) The maximum size of each accessory dwelling unit shall be four hundred square feet (400 sq. ft.) for lots between three thousand five hundred (3,500) and four thousand nine hundred ninety-nine square feet (4,999 sq. ft.), and up to eight hundred square feet (800 sq. ft.) for lots between five thousand (5,000) and nine thousand nine hundred ninety-nine square feet (9,999 sq. ft.) or more.

(2) Shall comply with the Yard and Area Regulations as provided in 21 GCA, Chapter 61, Article 5, except as otherwise provided in § 61142 of this Subarticle.

(3) Accessory dwelling units are not permitted:

(A) on lots with a lot area of less than three thousand five hundred square feet (3,500 sq. ft.);
or

(B) on lots that have more than one (1) dwelling unit, including, but not necessarily limited to, more than one (1) single-family dwelling, bed and breakfasts, duplexes, short-term vacation rental units; and any other permitted or conditional use structure in an A, R1 or R2 zone; or

(C) on lots without access; or

(D) on lots where existing Type 2 septic tank and leaching field sewage disposal systems are not adequate for the additional occupancy or cannot be upgraded to adequately serve the occupancy increase because of an ADU.

(4) The property owner or owners or persons who are related by blood, marriage, or adoption to the property owners, or designated authorized representative, shall occupy the primary dwelling unit or the accessory dwelling unit; except in unforeseen hardship circumstances including, but not limited to, active military deployment or serious illness, which prevent the continued occupancy of the primary dwelling unit or the accessory dwelling unit. For purposes of this Section, “designated authorized representative(s)” means the person or persons designated by the property owner or owners to the Department of Land Management, who are responsible for managing the property;

(5) One (1) off-street parking space per accessory dwelling unit must be provided.

(6) The accessory dwelling unit may only be used for long-term rental or otherwise occupied for periods of at least six (6) months, and cannot be used as a bed and breakfast or short-term vacation rental.

(7) The owner or owners of the lot shall record deeds running with the land with the Department of Land Management stating that:

(A) neither the owner or owners, nor their heirs, successors or assigns of the owner or owners will submit the lot or any portion thereof to a condominium property regime to separate the ownership of its primary dwelling unit; and

**21 GCA REAL PROPERTY
CH. 61 ZONING LAW OF GUAM**

(B) the deed restrictions lapse upon removal of the accessory dwelling unit, and all of the foregoing covenants are binding upon any and all heirs, successors and assigns of the owner or owners. The covenant must be recorded on a form approved by or provided by the Director of the Department of Land Management and may contain such terms as the Director deems necessary to ensure its enforceability. The failure of an owner or of an owner's heir, successor or assign to abide by such deed will be deemed a violation and will be grounds for enforcement by the Director pursuant to law.

(8) All other provisions in Guam law applicable to the construction and occupancy of structures in A, R1, and R2 zones shall apply, including, but not limited to, setback requirements, water, wastewater and power requirements, except as otherwise explicitly provided in § 61142 of this Subarticle.

(9) All rentals of an accessory dwelling unit, or of the primary dwelling unit if the property owner or owners, or persons who are related by blood, marriage or adoption to the property owner or owners, or designated authorized representative(s) who choose to receive rent for the primary dwelling unit and occupy the accessory dwelling unit, must be evidenced by a written rental agreement signed by the owner and the tenant for a lease period of at least six (6) months, provided, that after the initial lease period is concluded, the owner may allow the same tenant to continue renting the accessory dwelling unit on a consecutive month-to-month basis. All provisions in Guam law relative to business licensing requirements for rentals of property shall still apply.

(10) At the time of application for a building permit, the applicant shall first obtain written confirmation from the responsible agencies, including the Guam Waterworks Authority, the Guam Environmental Protection Agency, and the Department of Public Works, that wastewater treatment and disposal, water supply, and access roadways are adequate to accommodate the accessory dwelling unit.

(11) An accessory dwelling unit may be created by building a new structure detached from the primary dwelling unit or through conversion of a legally established structure that is either attached to or detached from the primary dwelling unit subject to meeting all pertaining zoning requirements, except as otherwise explicitly provided in § 61142 of this Subarticle.

(12) The owner of a structure constructed without a building permit prior to the effective date of this Subarticle who wants to convert that structure to an accessory dwelling unit shall obtain an after-the-fact building permit. In addition to fulfilling the base requirements of the after-the-fact building permit, any adjustments to the structure must conform to the accessory dwelling unit regulations enumerated in this Section and any additional adopted policies and rules.

(13) The Department of Land Management and the Department of Public Works must be notified upon removal of an accessory dwelling unit and appropriate procedures and regulations for demolition permits shall still apply.

(14) If an accessory dwelling unit is advertised as a bed and breakfast or short-term vacation rental, the existence of such advertisement will be prima facie evidence of the following:

(A) that the owner of the advertised unit disseminated or directed the dissemination of the advertisement in that form and manner; and

(B) that a bed and breakfast or short-term vacation rental, as applicable, is being operated at the location advertised.

**21 GCA REAL PROPERTY
CH. 61 ZONING LAW OF GUAM**

(C) The burden of proof is on the owner to establish otherwise with respect to the advertisement and that the subject property either is not being used as a bed and breakfast or short-term vacation rental, or that it is being used legally for such purpose.

(15) A building permit and all approvals required for an ADU unit shall be considered and approved ministerially without discretionary review. The permitting or reviewing agency shall either approve or deny the application for an ADU within sixty (60) days from the date the agency receives a completed application if there is an existing single-family dwelling on the lot. If the permit application for an ADU is submitted with a permit application to create a new single-family dwelling on the lot, the permitting or reviewing agency may delay approving or denying the permit application for the ADU unit until the permitting agency approves or denies the permit application to create the new single-family dwelling, but the application for the ADU shall be considered without discretionary review. If the applicant requests a delay, the sixty (60)-day time period shall be tolled for the period of the delay. If the agency has not approved or denied the completed application within sixty (60) days, the application shall be deemed approved. The permitting agency may charge a fee to reimburse it for costs incurred to implement this Subsection, including the costs of adopting or amending any regulation that provides for the creation of an ADU. If the permitting or reviewing agency denies an application for an ADU pursuant to this Subsection, the permitting or reviewing agency shall, within the sixty (60) day time period described in this Subsection, return in writing a full set of comments to the applicant with a list of items that are defective or deficient and a description of how the application can be remedied by the applicant.

(16) The following public agencies are required to service lots with ADUs:

(A) Adequacy of sewage disposal system shall be secured in writing from the Guam Environmental Protection Agency (GEPA) and the Guam Waterworks Authority (GWA).

(B) Adequacy of fire protection for all lots served by private streets shall be secured in writing from the Guam Fire Department.

(C) The lot must have direct access to a street that meets fire code requirements for fire apparatus access roads.

(17) Lease agreements executed under this Subarticle are subject to 21 GCA, Chapter 48 (Guam Landlord and Tenant Rental Act of 2018), except as may conflict with this Subarticle.

(18) All provisions in Guam law relative to fair housing and taxes, including, but not limited to, income taxes, property taxes, gross receipts taxes, insurance, and rentals shall apply, except as may conflict with this Subarticle.

(19) Lots zoned in an R1 zone shall be limited to one (1) detached or one (1) attached ADU. Lots zoned in an A or R2 zone shall be limited to one (1) detached ADU or one (1) attached ADU.

(20) Where an ADU is to be created as an attached or detached unit on a lot located within the Groundwater Protection Zone and within two hundred (200) feet of a sewer main, the ADU shall be permitted only if the primary residential unit and the ADU are both connected to sewer. Where an ADU is to be created on any other properties island wide within fifty (50) feet of a sewer main, the ADU will be permitted only if the primary residential unit and the ADU are both connected to sewer.

(21) Where a maximum of one (1) ADU is to be created as an attached or detached unit on a lot located within the Groundwater Protection Zone, the lot must be a minimum of nineteen thousand two hundred square feet (19,200 sq. ft.) in size, and both the primary and ADU unit shall be served by a Type 4 sewage treatment/disposal system.

§ 61142. Accessory Dwelling Units: Standards.

An ADU shall:

- (a) share utilities with the main house, or utilities may be billed separately, by separate meter; provided, that the ADU complies with the standards set by the agencies responsible for utilities;
- (b) be covered under the same homeowner's insurance policy as the main home or separately, at the option of the homeowner;
- (c) not be sold separate and apart from the primary single-family home;
- (d) be subject to the following setback requirements:
 - (1) a minimum side and/or rear yard setback of four (4) feet;
 - (2) if an ADU involves conversion of an existing structure detached from the primary dwelling and which conforms to the requirements of § 61141(b)(1), the minimum side and rear yard setback shall be a minimum of four (4) feet;
- (e) comply with any wastewater or environmental impact requirements in public laws, Guam Administrative Rules and Regulations, Guam law, and federal law; and
- (f) maintain minimum front yard requirements required in 21 GCA, Chapter 61, § 61501 for an ADU located in a front yard or on the front one-half (½) acre of a lot.

§ 61143. Common or Separate Utilities Options.

An ADU may, at the option of the homeowner, share electrical, plumbing, and data networking and telecommunications assets with the main home. Such sharing is subject to The Building Code of Chapter 67, Title 21, Guam Code Annotated.

§ 61144. Rental of Accessory Dwelling Unit.

An ADU situated on an A, R1 or R2 zoned lot that complies with all applicable codes in Guam is deemed eligible for rental subject to the provisions of this Subarticle.

§ 61145. Reporting Requirements to the Municipality.

Upon completion of an ADU, the head of household shall inform the Mayor of the affected municipality. This is to facilitate better governance through safety, community planning through village population data tracking, zoning compliance, etc.

§ 61214. Split-Zoned Lots.

(a) Split-Zone Election. Whenever a lot is affected by a zoning boundary which creates two (2) separate zoning designations within its boundaries, the property owner of such affected lot shall have the right to select one (1) of the two (2) zones, and to have it apply to the entire lot. Upon receiving a written request by a property owner to elect a zoning designation for the affected lot, the Director of the Department of Land Management shall approve the request, shall process all necessary documents to reflect the approval, and shall update all official maps of Guam to indicate the zone which the property owner has chosen.

(b) Applicability of Lot Split-Zone Boundary. In order to extend such permitted use from one (1) side of the lot split-zone boundary to the other side, a conditional use permit or a zone variance, as applicable, must be obtained pursuant to § 61303 or § 61617, Title 21, Guam Code Annotated.

No such use shall be permitted upon any part of the lot described in Subsection (a) above which is inconsistent or incompatible with the uses of property adjacent to such part, nor which would otherwise be detrimental to the public.

(d) Lot Consolidation. A split-zone election shall only be made on lots that are encumbered by such split-zone designation, as delineated in the official zone map series for the applicable municipality. No

[“(b) Temporary workforce housing means any enclosures of living spaces, reasonably contiguous, together with the land appertaining thereto, established, operated or used as living quarters and, at a minimum, fifty-one percent (51%) of the residents are temporary workers, including, but not limited to, facilities known by varying nomenclatures or designations as dormitories, hotels, motels, travel lodges, or tourist homes.”].

§ 61311. “H” Resort-Hotel Zone.

Notwithstanding any other provision of law, rule or regulation to the contrary, there is hereby created a H Resort-Hotel Zone for the purpose of being applied to areas to accommodate the needs and desires of visitors, tourists and transient guests.

(a) Purpose.

21 GCA REAL PROPERTY
CH. 61 ZONING LAW OF GUAM

(1) It applies to specific areas where public roads and public utilities are available or where suitable alternative private facilities are assured. It may apply to a single isolated hotel or resort with or without a commercial mall or shopping section.

(2) This Zone provides for high-intensity development in a compatible arrangement of structures and uses in a unique setting. It shall be designed to promote a superior level of convenience, comfort and amenity within the zone; to encourage safe and pleasant pedestrian circulation; to preserve existing attractions; and to assure beneficial visual relationships from principal viewpoints.

(3) Development shall be designed to establish an open character, with higher portions of buildings well spaced and oriented with respect to principal views from within the zone. Pedestrian circulation systems shall form a convenient and coordinated network through buildings and landscaped open spaces, supplementing sidewalks along streets; and where extensive areas of the shoreline are in such configuration as to allow it conveniently, walkways and/or bikeways shall be provided along the waterfront on both public and private property.

(4) Since hotels complement other activities in this zone without creating excessive automotive traffic, it is intended to permit higher floor-area ratios for hotel uses than for other uses within the zone.

(5) Since the zone is separated from major parking facilities in adjoining areas, it is intended that off-street parking requirements shall apply within its boundaries. It is further intended in view of the unusual visual exposure that adverse visual influences such as excessive signs, inappropriate lighting and open-storage shall be prohibited.

(b) Permitted Uses.

(1) Cultural and recreational facilities, hotels, restaurants, tourism related shops and offices, dwellings, parks, marinas, zoos, amusement activities and supportive services.

(2) Permitted Accessory uses and Structures. Uses and structures which are customarily accessory and clearly complementary to permitted principal uses and structures shall be permitted. Service stations shall be permitted only within, and as accessory to, parking garages containing two hundred fifty (250) or more parking spaces.

(1) Such buildings or structures may also be located and maintained in any side yard, except in the required eight (8) foot side yards adjoining each of the side lot lines.

(2) Such buildings or structures may also be located and maintained in any front, side or rear yard when such buildings or structures are to be used for purposes relative to connections to island electric power, including for standby generators and for alternative power connections for net metering purposes, provided that such buildings or structures shall be located at or near the point that electric power is provided by the Guam Power Authority, and if located in a front, side or rear yard,

§ 61504. Statement of Purpose: Building and Building Height Restrictions in Beach Areas.

(a) *I Liheslatura* finds that the indiscriminate building of structures on the beaches of Guam creates a menace to the well-being of the people of Guam by increasing the pollution of tidal waters, that such construction, in addition, deprives the people of Guam of their right to the untrammelled use of beach areas beyond the high water mark, and finally, that such construction destroys the natural beauty of Guam's beaches, one of Guam's greatest natural resources. Accordingly, it is the purpose of the restrictions hereinafter contained to protect the beaches of Guam for future generations, to alleviate the health problems caused by construction near tidal areas, and to make certain that the people of Guam remain free to use the beaches of Guam to the maximum extent not incompatible with private ownership of the lands adjoining said beaches.

(b) Along any beach in Guam, no building may be constructed within thirty-five feet (35') of the mean high watermark bounding said beach, nor may any building higher than twenty feet (20') be constructed within seventy-five feet (75') of the said mean high water mark. For the purpose of this section, the term, beach does not include those areas where the shoreline is a cliff or bluff higher than twenty-five feet (25'), nor shall it include those areas where the shoreline is bounded by village lots containing no more than a thousand (1000) square meters in those villages wherein residences have been constructed along the shoreline since prior to the Second World War, and term building included any structure except a retaining wall that cannot be seen.

(1) “Animated sign” means a sign employing actual motion, the illusion of motion, or light and/or color changes achieved through mechanical, electrical, or electronic means. Animated signs, which are differentiated from changeable signs as defined and regulated by this Section, include the following types:

(A) environmentally activated animated signs or devices are motivated by wind, thermal changes, or other natural environmental input, such as spinners, pinwheels, pennant strings, and/or other devices or displays that respond to naturally occurring external motivation;

(B) mechanically activated animated signs are characterized by repetitive motion and/or rotation activated by a mechanical system powered by electric motors or other mechanically induced means;

(C) electrically activated animated signs produce the illusion of movement by means of electronic, electrical, or electromechanical input and/or illumination capable of simulating movement through employment of the characteristics of one (1) or both of the classifications noted below:

**21 GCA REAL PROPERTY
CH. 61 ZONING LAW OF GUAM**

(i) flashing - animated signs or animated portions of signs whose illumination is characterized by a repetitive cycle in which the period of illumination is either the same as or less than the period of non-illumination. A cyclical period between on-off phases of illumination exceeding four (4) seconds shall not constitute flashing;

(ii) patterned illusionary movement - animated signs or animated portions of signs whose illumination is characterized by simulated movement through alternate or sequential activation of various illuminated elements for the purpose of producing repetitive light patterns designed to appear in some form of constant motion.

(2) “Changeable sign” means a sign with the capability of content change by means of manual or remote input, including the following types:

(A) manually activated - changeable sign whose message copy or content can be changed manually on a display surface;

(B) electrically activated - changeable sign whose message copy or content can be changed by means of remote electrically energized on-off switching combinations of alphabetic or pictographic components arranged on a display surface. Illumination may be integral to the components, such as characterized by lamps or other light-emitting devices; or it may be from an external light source designed to reflect off the changeable component display.

(3) “Digital sign” means an on-premise electrically activated animated sign, changeable sign, illuminated sign, or Electronic Message Center sign located in the *Tumon Bay* H Resort-Hotel Zone. Digital signs are not environmentally or mechanically activated flashing animated signs or devices.

(4) “Electronic Message Center (EMC) sign” means an electrically activated changeable sign whose variable message and/or graphic presentation capability can be electronically programmed by computer from a remote location. EMCs typically use light emitting diodes (LEDs) as a lighting source. Terms principally associated with an EMC are:

(A) display time - the amount of time a message and/or graphic is displayed.

(B) dissolve - a mode of message transition accomplished by varying the light intensity or pattern, in which the first message gradually appears to dissipate and lose legibility with the gradual appearance and legibility of the second message.

(C) fade - a mode of message transition accomplished by varying the light intensity, where the first message gradually reduces intensity to the point of not being legible and the subsequent message gradually increases intensity to the point of legibility.

(D) dynamic frame effect - a frame effect in which the illusion of motion and/or animation is used.

(E) frame - a complete, static display screen.

(F) frame Effect - a visual effect applied to a single frame.

(G) scroll - a mode of message transition in which the message appears to move vertically across the display surface.

(H) transition - a visual effect used to change from one message to another.

§ 61616. Variances.

Where practical difficulties, unnecessary hardships, or results inconsistent with the general purposes of this Chapter would occur from its strict literal interpretation or enforcement, the Guam Land Use Commission shall have authority to grant such variances therefrom as may be in harmony with its general purpose and intent, so that the spirit of the law shall be observed, public safety secured, and substantial justice done, including the following:

(a) Permit the extension of an existing or proposed conforming building or use into an adjoining more restricted zone for a distance not exceeding fifty (50) feet;

(b) Permit a building or use (including automobile parking) on a lot immediately adjoining or across an alley from a less restricted zone, upon such conditions and safeguards as will tend to cause an effective transition from the less restricted to the more restricted zone;

(c) Permit the addition, enlargement or moving of a nonconforming building or structure;

(d) Permit such modification of the height regulations as may be necessary to secure an appropriate building or structure on a lot which has such physical characteristics or is so located with relation to surrounding development that it cannot be properly improved without such modification;

(e) Permit such modification of the yard, lot width or lot area regulations or requirements as may be necessary to secure an appropriate building or structure on a lot which is of such size, shape or topography, or is so located in relation to adjacent property or improvements that it cannot be appropriately improved without such modification;

(f) Permit such modifications on the lot area per dwelling unit (density) requirements as may be necessary to secure an appropriate development of a lot in keeping with its size and location;

(g) Permit the modification or waiver of the automobile parking space or loading space requirements where such modification would not be inconsistent with the purposes of this Chapter;

(h) Permit temporary buildings or uses for a period not to exceed two (2) years in undeveloped areas;

(i) Permit the following uses in zones from which they are prohibited by this Chapter: governmental enterprises; public utilities and public service uses or structures; hospitals or institutions; or development of natural resources.

(j) Permit the construction of buildings in violation of the restrictions of § 61504 of this Chapter;

(k) Permit the owner of a lot in a rural zone to parcel therefrom one lot not less than ten thousand (10,000) square feet in area to be used for a single family residence, such variance to be conditioned upon a prohibition on any subsequent parcelling of the lot and that the parcelled out lot be served by water and power and a public road.

(l) [No text]

(1) Notwithstanding other provisions within this Section, establish guidelines through resolution to permit the Director of the Department of Land Management, with advisement from the Guam Chief Planner, to utilize his discretion in approving minor yard setback variances specifically for single family residential dwellings or any accessory structure of a residential use which, at a minimum, satisfies the following requirements:

21 GCA REAL PROPERTY
CH. 61 ZONING LAW OF GUAM

(A) The variance is for not more than three (3) feet beyond the setback requirement of only one (1) yard (side, front, or rear) to allow the suitable location of a structure where practical difficulties exist due to special circumstances applicable to the building or property, including size, shape, topography, location or surroundings, depriving such property of privileges enjoyed by other property in the vicinity and under identical zoning classification consistent with the general welfare of the adjacent neighbors.

(B) The granting of the variance does not authorize a use or activity which is not authorized by the zone regulations governing the parcel or property.

(C) Water runoff from the roof line of any structure shall not encroach beyond the property line of a parcel.

(D) No encroachment onto an area engrossed by a grant of easement shall occur.

(E) Concurrence from the adjacent property owners located along the property line closest to the setback encroachment shall be obtained.

(F) Real property chattels or any transient residential accommodations including breakfast inns, motels or hotels are not considered as residential dwellings for the purpose of this Subsection.

(G) No other setback variance shall be granted by the Commission on the parcel affected by a grant of variance through this Subsection. The physical removal of any structure or a portion thereof approved through this Subsection shall void the restrictions imposed by this Subsection.

(2) The Department shall notify all contiguous property owners of the proposed minor yard setback variance. Upon notification by the Department, the property owners shall have thirty (30) days to submit written objections to the Director.

(1) That the strict application of the provisions of this Chapter would result in practical difficulties or unnecessary hardships inconsistent with the general purpose and intent of the law;

(2) That there are exceptional circumstances or conditions applicable to the property involved or to the intended use thereof that do not apply generally to other property in the same zone;

(3) That the grant of the variance will not be materially detrimental to the public welfare or injurious to the property or improvements in the zone or neighborhood in which the property is located; and

(4) That the grant of such variance will not be contrary to the objectives of any part of the Master Plan adopted by the Commission or *I Liheslatura*;

(b) The above requirements need not apply to the types of uses specified in § 61616(i), and variances for such uses shall only be granted by the Commission where it finds that they are deemed essential or desirable to the public convenience or welfare, are in harmony with the various elements or objectives of the Master Plan, and will not be materially detrimental or injurious to the property or improvements in the immediate neighborhood.

§ 61639. Summary Procedure for Agricultural and Single Family Residential Rezoning.

The Department of Land Management (the Department) is directed to set up a procedure whereby landowners of agriculturally- or single family residentially-zoned properties in Guam can expeditiously apply for rezoning of their parcels. Owners of agriculturally-zoned property may apply to rezone their property as either Single Family Residential (R1) or Multi-Family Residential (R2); owners of single-family residentially-zoned property may apply to rezone their property to Multi-Family Residential (R2). Such procedure shall be incorporated into rules and regulations to be promulgated by the Director of Land Management pursuant to the Administrative Adjudication Law, which rules shall include provisions as to lot size and required infra structure and shall include the following steps:

(a) The submission of a completed application to the Director of Land Management who shall render a decision thereon within sixty (60) calendar days; provided, that:

(1) The Division of Planning, Department of Land Management, provides a written report whether there is adequate infrastructure to accommodate the zone change. The Guam Waterworks Authority, the Guam Power Authority, the Guam Environmental Protection Agency and the Department of Public Works are directed to provide such information without delay as the Department of Land Management (DLM) may require to complete the written report. Answers

**21 GCA REAL PROPERTY
CH. 61 ZONING LAW OF GUAM**

by such agencies to such requests must be provided to DLM not later than ten (10) working days from the date such request is made. If such requests are not answered within such period, DLM may proceed with its report with the assumption that the agency not answering the request has no objection to the rezoning.

(2) The applicant meets all other requirements established by DLM. This shall include the provision of a rough sketch of the development which the applicant intends to undertake on the land involved. The submission of a comprehensive development plan shall not be necessary until such time as the actual developer applies for the required permits.

(3) If, in the opinion of the Director of DLM, the rezoning requested is of such a nature that there is a need for a public hearing and/or notification to all landowners within a five hundred foot (500') radius of the parcel to be rezoned, DLM shall be responsible for determining the landowners to be notified, and shall bear all costs of public notification and the service of notification to the owners of all parcels within said five hundred foot (500') radius.

(4) The Director of DLM shall determine any additional funding or personnel required for the most efficient and economical accomplishment of the provisions contained herein and shall submit a request for such funding to *I Liheslatura* within thirty (30) days of the enactment hereof.

(b) Upon receipt of the completed application, the Director shall immediately transmit copies of the same to all the member departments and agencies constituting the Development Review Committee, which departments and agencies shall expeditiously make recommendations on the change request. Failure of any member department or agency to reply within forty-five (45) days of receipt of the application shall constitute concurrence with the requested change. The Director shall then approve or disapprove the application, and submit the same to *I Liheslatura* with his reasons for approval or disapproval, within sixty (60) days of its submission to him.

(c) If the application has been approved by the Director, the property the subject of the application shall be rezoned to either Single Family Residential (R1) or Multi-Family Residential (R2) as the case may be, unless within forty-five (45) days of its submission to *I Liheslatura*, *I Liheslatura*, by statute, amends or rejects the same. If the application has been disapproved by the Director, the property the subject of the application shall not be rezoned unless within forty-five (45) days of its submission to *I Liheslatura*, *I Liheslatura*, by statute, overrules the Director and approves the change of zone.
