ADULT REENTRY COURT

GARC

MISSION STATEMENT

Our Mission is to reduce recidivism and increase public safety by providing the necessary tools and skills to individuals transitioning from incarceration or parole into the community.

PROGRAM GOAL

The goal of the Reentry Court is to improve Reentry participants' outcomes, reduce criminal recidivism and improve public safety.

PROGRAM DESCRIPTION

The Guam Adult Reentry Court program is a court-supervised, reintegration program for defendants returning to the community from the Department of Corrections after serving 180 days of incarceration and with one year left on their sentence. The program aims to improve participant outcomes, reduce recidivism, improve public safety, and decrease prison overcrowding in Guam.

The Adult Reentry Court is a three-phase program.

- Phase I: Orientation/ Stabilization phase
- Phase II: Intensive Treatment phase
- Phase III: Graduation phase

Successful completion of the program occurs when an individual has served a minimum of 12 months in the program and has met the requirements in the case plan.

Adult Reentry Court participants are subject to intensive supervision which includes weekly reporting and court appearances, random drug & alcohol testing, counseling, educational & vocational training opportunities, and the use of court imposed incentives & sanctions.

Violation of program rules, such as mistreatment sessions, missed appointments with the Reentry staff, positive urine tests, non-compliance with the participant agreement, or case plan, or new criminal charges will result in sanctions being imposed by the Reentry Court Judge or termination from the program. If the participant is removed or withdraws from the Reentry Court, the participant will be referred back to Parole or the Parole Board.
